Question: Comment on what you believe were the best features of the course:

Response Rate: 54.55% (6 of 11)

1	The lectures were engaging and the workload was not overwhelming like other courses.
2	The instructor was very organized and adhered to the schedule presented in the syllabus. In addition, the instructor was easy to communicate with and offered insight to further expand on course materials. The presented lectures were engaging and facilitated classroom discussion. The online meetings/canvas materials were easy to navigate. The presentation of course-related materials was well thought out and allowed the student to become proficient in the retention of the material. Overall, the course provided a great educational experience.
3	The information covered in the course was very informational and specific. I feel very prepared to continue going through the HR minor program with what I have learned.
4	The best features were how long the classes were.
5	It effectively taught us to work in groups and how to navigate the world through informative lectures.

6	I enjoyed the interactive presentations and that the group work per week was altered. Though it was remote, it allowed the students to still get to know one another.

<b>Question:</b> Identify specific ways the course could be improved:	
<b>Response Rate:</b> 45.45% (5 of 11)	
1	n/a
2	Too much reliance on group work. It made the course stressful having to rely so many times on other people and then having to pick up the slack for them when they didn't do their work.
3	The course was fine how it was. Maybe not having a group project would be better especially since it was virtual.
4	One improvement may be to get a guest that is in the workplace psychology field and have them speak with students about the careers involved in the subject.
5	None, the course was run efficiently and created a great learning enviornment.
