He was very understanding when students would do discussion questions and loved when students contributed to the conversation. Q30 - Comment on what you believe were the best features of the course:

Response Rate:	36.36% (4 of 11)

1	The best features of the course was the class discussions and the in class activity assignments because it was an open conversation with the class and it was really nice to hear other students' stories about their experience in the workplace. As foe the in-class activities, it was a great way to interact and talk to fellow peers and do the assignments in an early matter since we just learned about the lesson at the same time.
2	Survey game, Young handsome professor, nice class structure
3	It is applicable to real-life situations and taught us how to act/react in business settings with reasoning.
4	Despite being a 3 hour lecture, Professor Knudsen always tried to keep it interesting and keep us engaged. He is very understanding and helpful
